1 POMPA IDRAULICA MAGGIORATA

Alcuni concorrenti usano le stesse pompe
idrauliche delle poltrone da parrucchiere, Maletti
invece utilizza delle pompe idrauliche maggiorate
così la poltrona rimane stabile anche in posizione
reclinata

BIGGER HYDRAULIC PUMP:

Other brands use the same hydraulic pumps as
hairdresser's chairs, while Maletti uses bigger
hydraulic pumps so the chair remains stable even
in a reclined position

2 BASE

Telaio in acciaio cromato e carter in alluminio, non
plastica come usano alcuni concorrenti

BASE

Chromed steel frame and aluminium carter, other
brands use plastic

3 MECCANISMO SINCRONO

Grazie al meccanismo sincrono si ottiene una
reclinazione totale della sedia, così il cliente può
stendere le gambe sulla pedana ribaltabile imbottita

SYNCHRONOUS MECHANISM

Thanks to the synchronous mechanism the chair is
completely reclining, so the customer can stretch
his legs on the padded footrest
